TILES WITH COZY ELEGANCE

Our collection inspired by nature with material touches. A versa tile collection in terms of decoration, tone and format , that presents a modern and industrial look.

In addition, it's resin effect gives the pieces a strong character and personality and its pleasant texture makes it the ideal choice for any environment . Our Collection is style, it is avant-garde. It perfectly combines the beauty of the classic but is transgressive and that is, in short , what makes this collection unique and exceptional .

MULTIPURPOSE APPLICATION

Our stoneware uses a minimal texture and a palette of expressive and versatile colors to embody the sensory experience of architecture. The inspiration for the project is the experience of authenticity achieved by re-using a variety of industrial surfaces, contemporary interior design icons, and developed through sophisticated colors for the modern home, a chromatic scale of neutral hues accompanied by brighter accents to create contrasts and enrich every space. The compositional possibilities offered by Blend are extended with exclusive multicolor solutions, granting evocative and scenographic licence to the interior decorator.
